

INDUSTRIAL STRENGTH BED EXTENDERS FOR TRUCKS, VANS, AND SERVICE BODIES

Extendobed invented the first telescoping truck bed extender in 1987. We look tough but we're built even tougher to withstand the extreme requirements of the Fire, Police, Military and Industrial markets.

Our units are already approved and used by the US Military, FBI, Homeland Security over 1,000 state and municipal fire and police departments, along with industries like Oil & Gas, Power, Electrical, Telecom, Pesticide, HVAC, Plumbing and Construction.

THE KEY BENEFITS:

- > Over 110% extension – past the taillights
- > Up to 3,000 lb. load limits that does NOT have to be evenly distributed
- > Industry-leading 20-year limited warranty
- > Value – transfer from one vehicle to the next
- > Fully customizable
