

EXTENDOBED

ADRIAN STEEL

WORK VAN SOLUTIONS

BUILT FOR WORK VANS

Extendobeds designed for work vans will revolutionize the way you store and access your equipment and supplies on your fleet of work vans. Every system can be customized to meet your needs, providing you the following benefits:

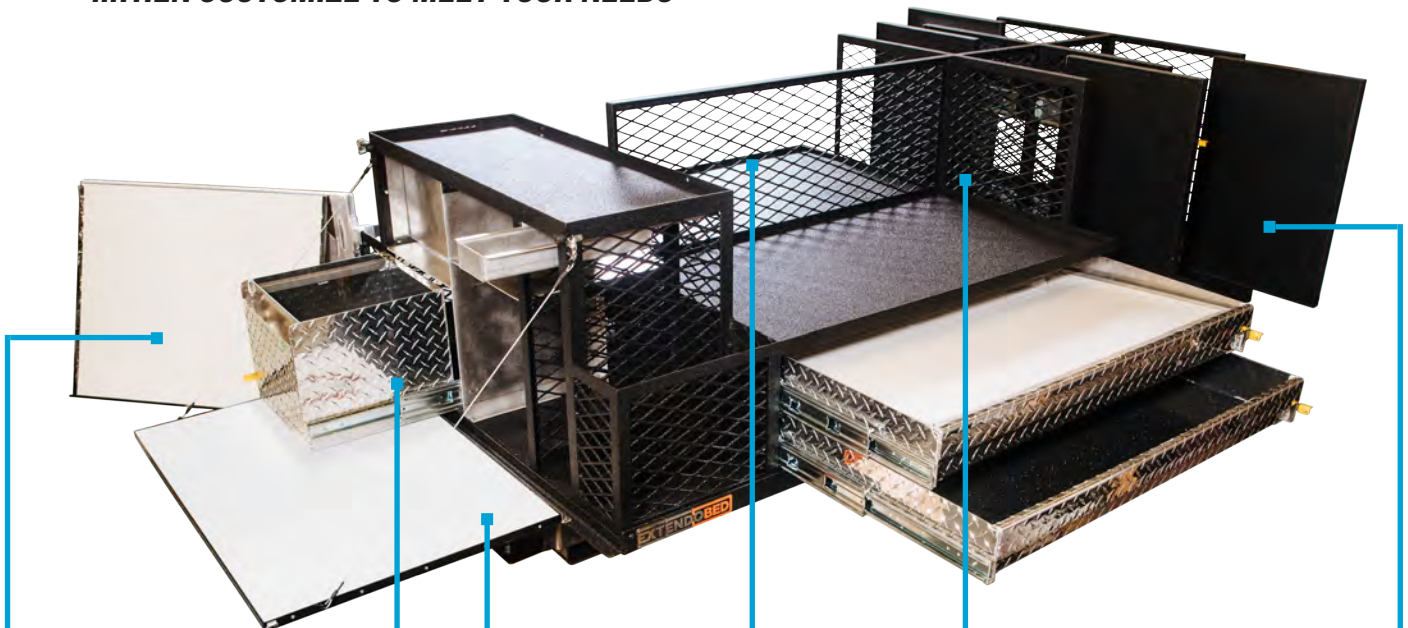

- Maximize storage space – up to 217% more storage volume than typical shelving systems.
- Increase productivity of work crews by helping them get on/off job sites quicker.
- Reduce injuries – no more lifting heavy items from awkward positions, or climbing in and out of a van, injuring knees, ankles and backs.

START WITH A SLIDING DECK...

- UP TO 3,000 LBS CAPACITY THAT CAN BE POINT LOADED
- OVER 110% EXTENSION, PAST THE TAILLIGHTS
- UP TO 11.5 FT LONG
- ALL-STEEL FRAMES
- HIGH-CAPACITY ROLLER BEARINGS

...THEN CUSTOMIZE TO MEET YOUR NEEDS

ALL THE ABOVE, PLUS....

- MOVABLE DRAWERS
- WHITE BOARDS

■ DIVIDERS

■ WORK TABLE

■ STORAGE WITH TIE-DOWN CAPABILITY

■ MOUNTING WALL SLIDEOUT

■ OTHERS (NOT SHOWN): 110 V OUTLETS, POWER DRIVE, RECEIVER

...AND MANY OTHER CUSTOM OPTIONS!

CASE STUDY

QUICK ROI: \$19,200 ADDITIONAL REVENUES PER VEHICLE ANNUALLY

Due to increased efficiency by getting on and off job sites quicker, a pest control company determined each vehicle can service approximately 4 more clients per week with Extendobeds installed. That's an additional 20 customers/month using the same personnel and vehicles. At an average charge of \$80/month, that turns into an additional \$19,200 in annual revenues per vehicle. And that does not include an almost 50% reduction in job site injuries!

STORAGE VOLUME COMPARISON

EXTENDEBED STORAGE SYSTEM

Maximizes cargo storage

- Sliding deck mounted in bed of van
- Efficient – no more climbing in/out of cargo area
- Easy access to heavy equipment/tools/supplies
- Reduced injuries

TRADITIONAL STORAGE SYSTEM

Underutilized cargo area

- Storage systems mounted on side walls
- Limited to weight capacity of sheet metal or plastic system
- Wasted time climbing in & out of van
- Greater risk for back, shoulder, knee, and ankle injuries

OVERALL LENGTH	CARGO LENGTH	ROOF HEIGHT	APPROX. STORAGE VOLUME	
			EXTENDEBED	TYPICAL SHELVING SYSTEM
~14.5'	6'	-	86 ft ³	44 ft ³
~15.8'	7.25'	-	106 ft ³	49 ft ³
~18.5'	~10.5'	Low	180 ft ³	90 ft ³
~18.5'	~10.5'	Medium	233 ft ³	117 ft ³
~19.7'	~12'	Low	207 ft ³	102 ft ³
~19.7'	~12'	Medium	268 ft ³	132 ft ³
~19.7'	~12'	High	303 ft ³	149 ft ³
~22.0	~14.3'	High	303 ft ³	184 ft ³

**Numbers based on Ford Transit/Ford Transit Connect, Dodge ProMaster/Dodge Promaster City, and MB Sprinter - 16" deep shelves.*
